

APPLICATION PROCEDURE FOR EXCHANGE STUDENTS

1. REQUESTING A USERNAME AND PIN (LOGIN CREDENTIALS)

Apply online through this website <http://www.opii.upv.es/incomings>

First, you will have to create a new profile: "Request a user ID and password". In "Type of activity" select "Student exchange program" and then select your School/Faculty of admission at UPV, in this case, "Camins - E.T.S.I CAMINOS, CANALES Y PUERTOS" (School of Civil Engineering - ETSICCP)

Make sure that you write a correct email address that you check frequently. Your request has to be seen and processed, so do not expect to receive your login credentials immediately (it may take a few working days). **UPV staff can only approve a request for login credentials if we have previously received a valid nomination from your home university, confirming that you have been selected for a mobility period at UPV, for the field of civil engineering.**

If everything is correct, you will receive two automatic emails:

- An email with instructions to complete a full online application
- An email including your user identification number and PIN number. Save these login credentials, as you will continue using them during your stay at UPV.

If you do not receive the email with the login details within 7 days after your request (check your spam folder), please contact us at int_etsiccp@upvnet.upv.es.

2. ONLINE APPLICATION ON OUR APPLICATION PORTAL (AIRE)

When you receive your login details:

STEP 1

- Go back to <http://www.opii.upv.es/incomings> or use the direct link <https://aplicat.upv.es/aire-app/>. Complete all fields of the electronic form.
- Include a pre-selection of classes to take at UPV (section "Academic data"). You will be allowed to make changes at the beginning of your stay if necessary. **Before choosing your classes, read attentively the information in sections 6 and 7 of this document.**

STEP 2

- Once you have completed all sections, **click on the button Confirm application**
- When you have done this, the status of your application will change to "Confirmed" and a new orange button will appear on the screen: **Print application**. Click on this button and the system will open a new window with a PDF file including all your details on one page.

STEP 3

Finally, you must upload the following documents to your online application:

- **Printed application**, signed by you and your home university. This is the document you obtain in Step 2. Please attach a recent picture (passport-style) in the upper right corner.
- **Letter of presentation/motivation**: freestyle, maximum 1 page in English or in Spanish.
- **Up-to-date academic transcript (in English / Spanish)**: your academic results **since your first year of university education**. If you are a master's student, include also a transcript for your undergraduate studies. If the document issued by your home university does not include the

courses you are enrolled in during this semester, create a Word document yourself. Merge all documents (Bachelor + Master + courses enrolled this semester) into one single PDF file.

- **Certificate(s) of language skills** (see section below “4. Language requirements”).

DEADLINE FOR APPLICATION (ALL DOCUMENTS MUST BE UPLOADED BY THIS DATE) (*)

- **WINTER / FALL SEMESTER or FULL ACADEMIC YEAR: 15 May**
- **SPRING SEMESTER: 15 October**

(*)You must start your online application at least one week before the deadline for two reasons: 1) we have to allow you into the system by giving you login credentials and 2) your university has to sign a document at the end of the process before you upload it.

3. LANGUAGE OF TEACHING

IMPORTANT NOTICE:

All our programs are taught in Spanish. We offer only a few courses (subjects) in English, with limited spaces, almost all of them in the February-June period.

Classes in English offered by other faculties of UPV are very often full and sometimes unavailable to exchange students accepted through other UPV Schools. **We cannot guarantee enrollment in classes in English offered by any other School.**

When you prepare your Learning Agreement/study program at UPV, do not assume you can be enrolled in English courses taught by any other UPV Schools, especially if you are looking for UPV courses to replace obligatory credits in your home university.

4. LANGUAGE REQUIREMENTS - CERTIFICATES ACCEPTED

All Erasmus / exchange students applying for admission to our School of Civil Engineering must submit proof of having achieved **level B1 of Spanish. This is an admission requirement.**

The only exceptions are:

- a. Spanish native speakers
- b. Italian or Portuguese native speakers: it is not obligatory to upload an official language Spanish certificate, but these students must upload Annex I (self-certification), available at the end of these instructions and also [in this link](#).
- c. Project Work in English: students accepted by a member of staff from our School to do a Bachelor or master's thesis in English and who are not going to enroll in courses taught in Spanish.

We accept the following certificates

- [DELE B1](#), [UniCert](#) Stufe 1, [SIELE Global](#) (in person or remote version), [TELC](#) B1,
- Annex II (last page of these instructions), also available [in this link](#).

We do not accept the following documents

- Erasmus OLS test results
- Transcripts of records from secondary school.
- Certificate of enrollment in a B1 Spanish course (being enrolled in a language course is not the same thing as having completed a level of CEFR in the 4 language skills).

Deadline to prove that you have completed level B1

- **Option 1 (15 May / 15 October):** you upload one of the documents explained above with the rest of your application material, before our standard deadline.

If you use [Annex II](#) signed by your home university, they must check (✓) box number 1 or number 2 of the document, confirming you already have reached level B1 or B2.

- **Option 2: (15 July / 15 December):** if your current level is not yet B1, you have 2 extra months to reach it. This is a 2-step procedure:

a) Before 15 May / 15 October, upload [Annex II](#) signed by your home university, where they check (✓) the last option of the document, in which they confirm that you engage yourself to present a certificate later on. Upload it with the rest of your application documents.

b) Before 15 July / 15 December, upload an official Spanish language certificate or Annex II again, but this time your home university must check (✓) the option that confirms that you have already reached level B1 or B2. Please upload this new certificate in “Languages / Mentor” of your online application, or send it by email to int_etsiccp@upvnet.upv.es

5. CALENDAR AND TIMETABLES

- First semester/Semester A: early September-early February
- Second semester /Semester B: early February-late June

The calendar is available on the ETSICCP website:

<https://www.iccp.upv.es/web> > Students > Timetable and Calendar

6. STUDY PROGRAMS AVAILABLE

You will find the programs available in our School in this link:

[https://www.cam.upv.es/web/expl.aspx?id=\\$2\\$Estudiantes\1\\$Titulaciones](https://www.cam.upv.es/web/expl.aspx?id=2Estudiantes\1$Titulaciones)

Additionally, students with a level B2 of Spanish may request courses from 2 other programs which are academically independent from our School (our International Office is in charge of mobility programs for these degrees):

2152 -[Máster en Ingeniería Hidráulica y Medio Ambiente](#)

2176 -[Máster en Ingeniería del Hormigón](#)

Check “Annex III - Useful information to select your courses” where you will find details to navigate the websites.

7. HOW TO CHOOSE YOUR CLASSES

- You may select classes from different study programs in our School and different years of the same study program (please note that regular UPV degree students do not have this freedom to combine courses).
- Class timetables and exam dates are planned for each study program and for each year of the degree. The more you combine courses from different degrees, the more difficult your timetable could become and you may have overlaps in your classes or with exam dates. Please check this carefully during your confirmation of courses.
- You must take the majority of your credits from the degree programs offered by your host UPV School (School of Civil Engineering – ETSICCP), explained in section 6 of this document.
- Maximum 40% of the ECTS you enroll may be selected from other UPV Schools/Faculties, with the limit of 12 ECTS per semester. However please note that **we cannot guarantee enrollment in courses taught in other Schools.**

8. PROJECT WORK /FINAL PROJECT (BACHELOR OR MASTER'S THESIS)

Detailed instructions and tips [in this link](#)

9. MENTOR STUDENT AND ERASMUS STUDENT NETWORK

Mentor student

This is a local UPV student who is studying in your host UPV School. S/he can help you with academic orientation and can provide practical information in the pre-arrival phase and also at the beginning of your stay in Valencia (orientation in the city and on campus, help with finding accommodation, choosing your classes correctly, understanding our academic organization, etc.). If you are interested, select this option in your online application form (section “Mentor / languages”).

ESN – Erasmus Student Network

ESN is the biggest student association in Europe, operating on three levels: local, national, and international. They support and develop student mobility, and it's run by volunteer students.

ESN can help you with: housing, info about the city, SIM cards, sports equipment...

ESN organizes lots of activities for international students: city tours and day trips, long trips, film screenings, international cooking, parties, dance classes, volunteering...

esnvalenciaupv.org

10. SPANISH LANGUAGE COURSES

Intensive Spanish course before the semester (fees applied)

UPV offers a 2-week Spanish course in its Gandia Campus before each semester. Gandia is 70 km south of Valencia and the campus is next to the beach. Students who successfully complete this course will get 4 ECTS and a certificate at the end of the course.

For further information: <http://www.upv.es/contenidos/ORI/info/745949normalc.html>

Please note: This is a refresher course only. It will not be taken into account as proof of Spanish language skills. We need proof of your language skills maximum by 15 July or 15 December.

Spanish language course during the semester (free of charge)

UPV offers exchange students the possibility to enroll in a non-intensive Spanish course both in the winter and in the spring semester. These courses have typically 3 hours of class per week.

We offer only A2, B1 B2 and C1 level. (A1 level is offered exclusively to students from Asian universities).

Enrollment will open at the beginning of each semester and it will be announced by email. All students will have to take an online placement test (level test) before the beginning of classes. The level obtained will determine the course level you can select at UPV.

If you are staying for two semesters and successfully complete a Spanish course in the first semester, you may apply for the next level in the second semester.

11. ACCOMMODATION IN VALENCIA

UPV does not provide housing for exchange students. However, here you will find some useful links: <http://www.upv.es/perfiles/estudiante/alojamientos-upv-en.html>
(Section "Accommodation" in UPV website)

List of some companies and portals specializing in temporary accommodation or accommodation for students:

<https://www.valenciaflatrental.com/category/holiday-rental-valencia/>
www.easypiso.com
www.aluni.net
www.uniplaces.com
www.studentsglobalrelocation.com

(there is no agreement or business relation between these companies and UPV).

ANNEX I. SELF-CERTIFICATION OF SPANISH LANGUAGE LEVEL (only for Spanish, Italian, or Portuguese native speakers)

Check one of the two options with and sign the document.

(Name and FAMILY NAME) _____

I confirm that Italian / Portuguese is my native language;

UPV will not require any formal Spanish certificate for admission

However, I have read, understood, and accepted the following points:

- **UPV expects Italian and Portuguese native speakers to enroll in courses (subjects) taught in Spanish, not in English** (preparation of Bachelor or Master's thesis can be carried out in English, as well). Enrollment in any course taught in English will only be exceptionally approved if there are no capacity problems in a certain course (more student requests than spots available).
- Courses (subjects) at UPV have a continuous assessment method, sometimes with exams or assignments due a few weeks after the beginning of the semester. **Italian and Portuguese native speakers are expected to be able to communicate in Spanish since their arrival. Students must study basic Spanish grammar, pronunciation, and vocabulary before arrival.**
- The Spanish language courses for exchange students during the semester begin at level A2 (B1 in campus Alcoy). **Exchange students will be allowed to participate in these courses as long as they have consolidated the previous CEFR level before arrival** (there is a level exam shortly before the beginning of the classes).
- **UPV strongly encourages the use of online resources to Learn Spanish:**
 - **Erasmus Online Language Support (OLS) website and app:** <https://app.erasmusplusols.eu/it> or <https://app.erasmusplusols.eu/pt> ; Students from Italian or Portuguese universities will receive the invitation to log in to the OLS platform from their home university.
 - **UPV Moocs on edX platform:** [Basic Spanish Professional Certificate | edX](#)
(there are three levels and the online courses are always free of charge; students only have to pay a fee if they want to obtain a certificate at the end).

confirmo que el español es mi lengua materna

Student signature and date:

ANNEX II. STATEMENT OF SPANISH LANGUAGE SKILLS (BY HOME UNIVERSITY)

UPV expects partners to check their students' language background. Most of our partner universities require UPV exchange students to prove that they have at least level B1 of CEFR (mostly B2 or even C1) of the language of instruction. We expect the same.

For the sake of quality in exchanges and the performance of your students, we kindly ask partner universities to be serious and realistic about their students' level of Spanish. Keep in mind that language experts generally recommend 120-180 hours of class and several months of practice for the B1-B2 levels of CEFR (between European languages).

Mr./Ms: _____

Email: _____

(check one of the following options with)

- International Relations (Study Abroad) programs administrator
- Spanish language teacher

CONFIRMS that the student: _____

(check one of the following options with)

- Already (at the time of application) has a level of Spanish equivalent to level B1 of CEFR and is ready to participate in classes taught in Spanish** (accepted by the School of Civil Engineering and many other UPV Schools and Faculties but not all, [see link](#))
- Already (at the time of application) has a level of Spanish equivalent to level B2 of CEFR and is ready to participate in classes taught in Spanish** (accepted by the School of Civil Engineering and many other UPV Schools and Faculties but not all, [see link](#))
- Has engaged himself/herself to provide a Spanish language certificate of the required level ([see link](#)) before 15 July** (arrival in September) **or 15 December** (arrival in January/February). **Students failing to comply with this point and previously accepted for courses taught in Spanish will not be re-directed towards courses taught in English and they may be refused registration as a student at UPV.**

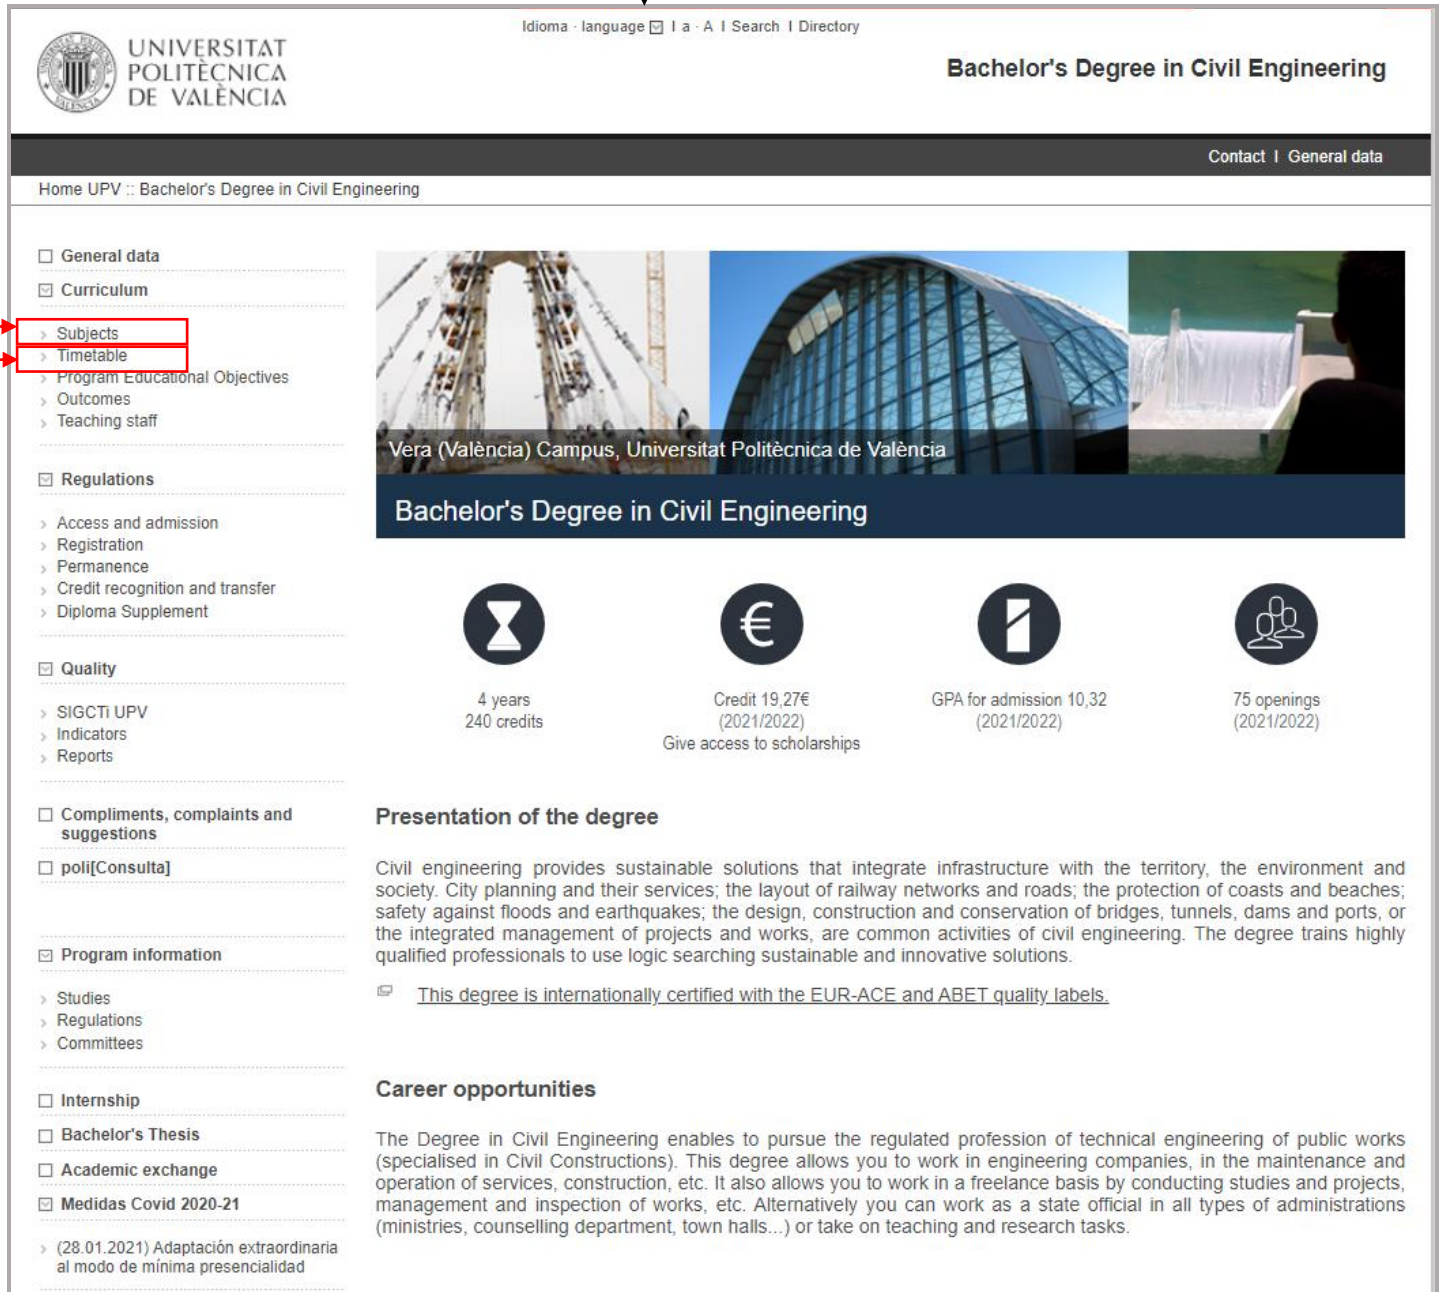

[Link to information on language requirements](#)

Remarks (optional):

Date and signature:

Annex III – Useful information to select your courses

(you may switch between Spanish and English on top of the website; **but keep in mind that the language of teaching in these degrees remains Spanish**). Inside each program, the website looks like this:

Presentation of the degree

Civil engineering provides sustainable solutions that integrate infrastructure with the territory, the environment and society. City planning and their services; the layout of railway networks and roads; the protection of coasts and beaches; safety against floods and earthquakes; the design, construction and conservation of bridges, tunnels, dams and ports, or the integrated management of projects and works, are common activities of civil engineering. The degree trains highly qualified professionals to use logic searching sustainable and innovative solutions.

[This degree is internationally certified with the EUR-ACE and ABET quality labels.](#)

Career opportunities

The Degree in Civil Engineering enables to pursue the regulated profession of technical engineering of public works (specialised in Civil Constructions). This degree allows you to work in engineering companies, in the maintenance and operation of services, construction, etc. It also allows you to work in a freelance basis by conducting studies and projects, management and inspection of works, etc. Alternatively you can work as a state official in all types of administrations (ministries, counselling department, town halls...) or take on teaching and research tasks.
